Without double-pointed needles

Wristwarmers, socks and other pieces with short rounds are usually knitted on a set of double-pointed needles.

It is also possible to work them without double-pointed needles

1. The first option is to use a long circular needle. This technique is also called "MagicLoop". The circular needle has to be at least 100 cm (39.5 in) long.

*** Knit the stitches from one side and pull the needle tip out (in the direction of knitting). Push the second needle tip back to the stitches. Knit the stitches from the other side and pull the needle Tip out. ***

Keep repeating these steps.

- - -

2. For the second option, use 2 circular needles.
Use 2 circular needles with the same needle size, preferably 60 cm (24 in) long.

Knit the stitches from one side with the first needle and the stitches from the other side with the second needle.

Have much fun with your needlework!
